2. He accordingly submits a Comparative statement and states that as no re-appropriation is possible and as all the works have been already carried out, current year's expenditure cannot be limited to the extent of funds available and requests that

Receipts for 1902-03 = 144,203
Total = 1,71,192

With reference to the Supplemental Budget of the Corporation City Municipality for 1902-'03, the Secretary having observed whether it was not a better course to call for a statement of excess expenditure over the sanctioned grant and convey formal sanction thereto instead of passing a belated budget, draft docket to Comptroller calling for such a statement was put up and submitted to Secretary to-day. It is, therefore, submitted that formal sanction may be accorded to the revised estimate for the work.

Re Estimate of Rs. 3701 for removing, washing and repairing the filtering materials of the three filter beds at Oontikoppal.

.....

The affairs of this Municipality, are, I am afraid, not satisfactorily managed. In the present case, the sanction of Government was anticipated. The original estimate for which itself there was no provision was subsequently exceeded - and now a large supplemental grant has been asked for. I am not sure that funds ar available, the closing balance of Rs. 6217 bein only an estimate. All the same sanction has to be given, the expenditure having already been incurred.

Agreement of the cost (Rs 2940/-) of overhauling the turbines at Belagola

LAST REFERENCE

Letter No. 867 dated 10th May 1902 from the President of the Municipal Commission, Mysore City.

In Govt Progs: No 1654-7 C 7103-92 dated the 29th July 1901 the Mysore City Municipal Water works including the turbines at Belagola were placed under the sole control of the Municipality tentatively for a period of one year from the 1st July 1901. The Government

(Spare copy put up)

Belagola had been out of gear, and the Chief Engineer reported that they would be overhauled thoroughly." (vide para 4 of the letter cited in that order)

2 Accordingly, in February 1902, Mr. Lee forwarded to the President for approval and return an estimate for overhauling the old turbines, amounting to Rs 2 9+40/-

3 This was placed before the Board at its meeting held on the 26th April 1902 and the following resolution had arrived at

The Government may be moved to sanction this amount out of

+ This is erroneously given as Rs 20 40 in the President's letter & the Board's resolution

Provincial Funds as this work was carried on before the turbines were formally handed over to the Municipality".

4. The President now solicits sanction to the Board's proposal.

5. It is submitted that in terms of the Government order no 9412-4 dt 15th February 1900 it was observed that the payment on account of maintenance charges should include the cost of working the Pumping Station as also of the upkeep of the Sukenhalli reservoir whether or not the Board is able take over the management

11 The President
now submits a copy

in regard to the purchase
of 3 fresh turbines at
a cost of Rs 5,000/-. The
resolution is as follows:—
Resolved that

Letter no 58 of 20.10.02
(serial no 52)

that the 3 turbines be purchased as proposed by the Chief Engineer and that an application be made to Government asking them to be pleased to take charge of the old turbines and in return relieve the Municipality of half the cost of the new turbines amounting to Rs 5,000/- which the Board in its present financial condition is unable to bear in full".

12 From the Chief Engineer's letter* enclosed* it would appear that 2 new turbines will be required at an early date

*serial 57/A.

to replace those erected in 1893 The Chief Engineer recommends to have 3 turbines of certain design costing about £ 300/-, as these are more efficient and a great saving will be effected in point of repair (vide serial no 12/A)

13 It is not, however, clear from the records whether the overhauling of the turbines "three-by-two" as contemplated in para 4 of the letter read in Govt Pro. no 1654-7 / 103-92 dt 29th July 1901 and for which an estimate for Rs 2960/- was ordered to be paid out of municipal funds in the order of

4 Submitted for orders. The closing balance as per sanctioned Budget is Rs 21,000/-. The Board have recently proposed to buy a steam roller at a cost of Rs 5,000/-. A revised Budget has also been received in office providing for travelling allowances of the Vice-President and the Engineer amounting in all to Rs 2,400. If these are sanctioned the closing balance will be further reduced to Rs 13,600 the working balance

of new turbines. herewith submitted. In that note the Chief Engineer states that the antiquated type of turbines at Belagola are very nearly worn out, after some years use, and that as things stand it is impossible to guarantee a continuous supply of water to the city. He therefore requests the Dewan's sanction to order the plant at once. As regards the cost, viz about Rs 5000/- including freight and duty, he adds that the question whether the Municipality should bear the whole cost or not can be decided later on.

It is therefore clear that the 3 new turbines are intended to rep

the old ones

Orders have to be passed on the Boards' resolution requesting to be relieved of half the cost of the turbines taking charge of the old turbines in return These old ones are estimated to fetch "a fair price" if sold. The Boards' finances is, no doubt at a low ebb

SECRETARY TO THE GOVT. OF MYSORE,
in the REV. & GEN. DEPTS.

Sir,

With reference to your docket No 10300/C.J.103.92 dated the 23rd December 1902, I have the honor to state that by a reappropriation of the funds sanctioned in the current year's Budget, it is not possible to meet the cost of the proposed work. The Health Officer having considered certain extra works not provided for in the Original estimate

to be necessary in the interests of the health of the city, the estimate had to be revised. The Board sanctioned the estimate as revised. The cost of the work, viz, Rs 4,762 — — may be met out of the general savings. As reported in this office no 93 dated the 29th November 1902, the work is in progress.

I have the honor to be,
Sir,
Your most obedient Servant,

President,

SECRETARY TO THE GOVT. OF MYSORE,
REV. & GEN. DEPTS.

Sir,

With reference to your docket no 18367 / 3103 92 dated 30th June / 2nd July 1903 requesting to state what amount was spent for repacking the filter beds at Doutikoppal, I have the honor to state that Rs 3,581-0-1 have already been paid out of the amount of Rs 7,797 sanctioned in the last year's budget under "V miscellaneous Vani Vilas Water Works". The balance of Rs 1160-15-11 has been paid out of the current year's allotment under the same head.

With reference to para 2 of the

that as it is imperatively necessary to supply the city with pure water and as the Executive Engineer Kessarghatta Water Supply Division and the Health offices were of opinion that the work should be started at once, the same was put on hand as was reported in this office letter no 93 dated 29th November 1902

I have the honor to be,
